## AFL-CIO 2003 <br> Congressional Voting Record

## AFL-CIO

## 2003 Senate Scorecard 108th Congress-Second Session

1. ESTRADA NOMINATION-Cloture—Miguel Estrada is one of many individuals President George W. Bush nominated to the federal appellate courts who have extremely troubling records on workers' rights, civil rights and the environment. The ultraconservative Estrada, who has never served as a judge on any level, was nominated for a seat on the U.S. Court of Appeals for the District of Columbia Circuit. Opponents of Estrada's nomination began a filibuster after he refused to answer Senate questions about his judicial philosophy and the White House refused to release legal documents Estrada wrote while working at the U.S. Department of Justice. The Republican leaders' cloture motion to end debate on Estrada, which needed 60 votes to pass, failed March 6, 2003, 55-44: $\mathbf{Y}=\mathbf{W} ; \mathbf{N}=\mathbf{R}$ (R: 51-0; D: 4-43; I: 0-1) Note: After seven failed cloture votes, Estrada withdrew his nomination Sept. 4, 2003.
2. AMTRAK-S. Con. Res. 23-Amtrak, the nation's passenger rail line, carries millions of passengers each year and employs more than 20,000 workers. For fiscal year (FY) 2004, Amtrak estimated it needed $\$ 1.8$ billion to avoid service cuts, layoffs and the elimination of many key passenger routes. But the Bush administration's FY 2004 budget request for Amtrak was just half the funding needed. A bipartisan amendment to a Senate budget resolution by Sens. Robert Byrd (D-W.Va.), Frank Lautenberg (D-N.J.) and Arlen Specter (R-Pa.) increased funding for Amtrak by $\$ 912$ million to $\$ 1.8$ billion. The amendment passed March 21, 2003, 51-49: Y=R; N=W (R: 3-48; D: 47-1; I: 1-0)
3. TAX CUTS—S. Con. Res. 23—President Bush proposed some $\$ 726$ billion in tax cuts and restructuring aimed primarily at the wealthy in his FY 2004 budget proposal. The Senate budget resolution mostly mirrored Bush's tax cut plan. Senate Democrats offered an amendment that would reduce tax cuts in the resolution to $\$ 350$ billion and allocate $\$ 120$ billion toward a new Social Security reserve account, with the remainder going toward deficit reduction. The amendment was adopted March 25, 2003, 51-48: Y=R; N=W (R: 3-48; D: 47-0; I: 1-0)
4. BUDGET/CONFERENCE REPORT—H. Con. Res. 95—The final version of the FY 2004 budget resolution dropped the Senate's reduction of President Bush's tax cut for the wealthy and slashed domestic programs by more than $\$ 500$ billion to make room for Bush's $\$ 726$ billion tax cut (including $\$ 364$ billion for the corporate dividend tax cut). The budget resolution cut funding for all nondefense programs (including all education, job training and health care programs) by $\$ 244$ billion over the next 10 years and cut an additional $\$ 265$ billion in mandatory spending for Medicaid, veteran's benefits and pensions and benefits for federal employees and railroad employees. The resolution included no funds to help states address their financial crises and inadequate funds for infrastructure investments that can create jobs by rebuilding roads, bridges, schools and water, sewer and transportation systems. Following a 50-50 tie vote, Vice President Dick Cheney, as president of the Senate, cast the deciding vote and the resolution was passed April 11, 2003, 51-50: Y=W; N=R (R: 49-2; D: 1-47; I: 0-1)
5. UNEMPLOYMENT INSURANCE BENEFITS EXTENSION—S. 1054—In May 2003, the nation's unemployment rate stood at 6 percent and some 10 million workers were jobless. More than 1 million long-term jobless workers were nearing the end of their state benefits. At the same time, the federal Temporary Extended Unemployment Compensation (TEUC) program was due to expire May 31. The program provides 13 weeks of federal unemployment insurance (UI) benefits to workers who exhaust their state UI benefits. Sen. Edward Kennedy (D-Mass.) offered an amendment to a tax cut bill that would have extended the expiring TEUC program for another six months, with an additional 13 weeks of benefits for workers who exhaust their federal benefits. The amendment also called for unemployment benefits for low-wage workers and workers seeking part-time employment. The amendment, which required 60 votes for passage, failed May $15,2003,50-49: \mathbf{Y}=\mathbf{R} ; \mathbf{N}=\mathbf{W}(\mathrm{R}: 2-48 ; \mathrm{D}: 47-1$; I: 1-0)
6. BUY AMERICAN—S. 1050—Buy American rules traditionally have required that most U.S. military equipment, defense systems and components be manufactured in the United States. An amendment to the FY 2004 U.S. Department of Defense authorization bill weakened the Buy American requirements. The amendment, offered by Sen. John McCain (R-Ariz.), exempted defense goods from six European countries from Buy American requirements. It passed May 21, 2003, 50-48: $\mathbf{Y}=\mathbf{W} ; \mathbf{N}=\mathbf{R}$ (R: 49-1; D: 1-46; I: 0-1)
7. MEDICARE PRESCRIPTION DRUGS/RETIREES-S.1-The Senate version of the Medicare prescription drug legislation penalizes seniors with employer-provided drug coverage, because the portions of their drug costs paid for by the coverage would not count toward meeting the various spending levels seniors must spend on prescription drugs before the Medicare drug benefits take effect. This trick definition of out-of-pocket costs would force most seniors and their employer-provided plans to pay more of the cost of prescription drugs before the Medicare coverage takes effect. The Congressional Budget Office estimated the bill's definition of out-of-pocket expenses would prompt employers to drop retiree health benefits for 4.4 million seniors. Senate Democrats offered to expand the definition of out-of-pocket expenses in the bill to include payments made by employers for retiree drug coverage and other third-party coverage not already included in the bill. A motion to table (defeat) the amendment passed June 24, 2003, 52-43: Y=W; N=R (R: 49-0; D: 3-42; I: 0-1).
8. TRADE: U.S.-SINGAPORE—H.R. 2739—U.S. and international labor and human rights activists long have fought to include strong and enforceable workers' rights standards, including the freedom of association, in trade agreements. The U.S.-Singapore Free Trade Agreement negotiated by the Bush administration did not include enforceable core labor standards. The agreement also contained a new temporary guest-worker program for professional workers entering the United States from Singapore. The bill passed July 31, 2003, 66-32: Y=W; N=R (R: 44-7; D: 22-24; I: 0-1)
9. TRADE: U.S.-CHILE-H.R. 2738-U.S. and international labor and human rights activists long have fought to include strong and enforceable workers' rights standards, including the freedom of association, in trade agreements. The U.S.-Chile Free Trade Agreement negotiated by the Bush administration did not include enforceable core labor standards. The agreement also contained a new temporary guest-worker program for professional workers entering the United States from Chile. The bill passed July 31, 2003, 65-32: Y=W; N=R (R: 43-7; D: 22-24; I: 0-1)
10. OVERTIME-H.R. 2660-In March 2003, the Bush administration announced a plan to make changes in the Fair Labor Standards Act that could eliminate overtime pay eligibility for 8 million or more workers. Sen. Tom Harkin (D-Iowa) offered an amendment to the FY Labor, Health and Human Services and Education appropriations bill to guarantee workers' overtime pay eligibility by prohibiting the U.S. Department of Labor from using funds to promulgate or implement any regulation that
would take away overtime protection from workers who currently qualify. The amendment passed on Sept. 10, 2003, 54-45: Y=R; $\mathbf{N}=\mathbf{W}$ (R: 6-44; D: 47-1; I: 1-0)
11. PRIVATIZATION-H .R. 2989—In 2002, the Bush administration announced plans to privatize and contract out more than 850,000 federal jobs. In May, the Office of Management and Budget announced new rules that gutted previous regulations designed to create a level playing field between private contractors seeking government work and the agencies and workers performing the workand ensure taxpayer dollars are spent well. Senate Democrats offered an amendment to the FY 2004 Treasury, Transportation and Independent Agencies appropriations bill that would have blocked implementation of the new pro-contractor privatization process. The amendment failed Sept. 23, 2003, 47-48: Y=R; $\mathbf{N}=\mathbf{W}$ (R: 3-47; D: 43-1; I: 1-0)
12. FAA REAUTHORIZATION/CLOTURE-H.R. 2115-In the summer of 2003, the Senate and the U.S. House of Representatives approved versions of the Federal Aviation Administration Reauthorization bill that contained provisions to guard against a Bush administration plan to privatize the nation's air traffic control system. But those provisions were dropped in the Republican-dominated conference committee that merged the legislation. Along with allowing air traffic control privatization, the conference report included provisions that allowed foreign air cargo companies to raid U.S. domestic markets in violation of longstanding cabotage laws that govern foreign participation in the domestic airline market and gutted flight attendant anti-terrorism training requirements in defiance of a bipartisan mandate embodied initially in the Homeland Security Act of 2002. Senators opposed to the privatization scheme and the other provisions staged a filibuster against the bill. The cloture motion to limit debate and end the filibuster-which required 60 votes to pass-failed Nov. 17, 2003, 45-43: $\mathbf{Y}=\mathbf{W}$; $\mathbf{N}=\mathbf{R}$ (R: 42-3; D: 3-39; I: 0-1)
13. MEDICARE PRESCRIPTION DRUGS/POINT OF ORDER—H R. 1—The final version of the Medicare prescription drug bill moved Medicare toward privatization, steered seniors to private HMOs, forced 32.5 million current beneficiaries to pay higher premiums and other Medicare costs, opened the doors to $\$ 139$ billion in profits for the pharmaceutical industry, prevented the government from negotiating for lower drug prices, did nothing to rein soaring prescription drug costs for seniors and threatened the employer-provided drug coverage of millions of retirees. To slow passage of the bill and gain another opportunity to make improvements, Democrats raised a budget point of order against the bill. In a parliamentary maneuver, Republicans offered a motion that in effect would block the point of order. The motion, which required 60 votes to pass, was approved Nov. 24, 2003, 61-39: $\mathbf{Y}=\mathbf{W} ; \mathbf{N}=\mathbf{R}$ (R: 49-2; D: 11-37; I: 1-0)

## AFL-CIO

## 2003 House Scorecard 108th Congress-Second Session

1. BUDGET—S. Con. Res. 95-The fiscal year (FY) 2004 House budget resolution-designed by Republican leaders to reflect the Bush administration's priorities-cut domestic programs by more than $\$ 500$ billion to make room for President George W. Bush's $\$ 726$ billion tax cut aimed mostly at the wealthy (including $\$ 364$ billion for the corporate dividend tax cut). The budget resolution cut funding for all nondefense programs (including all education, job training and health care programs) by $\$ 244$ billion over the next 10 years and cut an additional $\$ 265$ billion in mandatory spending for Medicaid, veteran's benefits and pensions and benefits for federal employees and railroad employees. The resolution included no funds to help states address their financial crises and inadequate funds for infrastructure investments that can create jobs by rebuilding roads, bridges, schools and water, sewer and transportation systems. Although the allotted time for a vote on the budget resolution had expired, Republican leaders held the vote open and strong-armed several Republicans lawmakers who had voted against the budget resolution with appeals to party loyalty to switch their votes. The resolution passed March 21, 2003, 215-212: Y=W; $\mathbf{N}=\mathbf{R}$ (R: 214-12; D: 1-199; I: 0-1)
2. AVIATION WORKER RELIEF-H.R. 1559—Aviation workers are among the hardest hit by the nation's economic downturn fueled by Bush's tax-cuts-for-millionaires economic policies and the effects of the Sept. 11, 2001, terrorist attacks. But while Congress and the White House provided a bailout for airlines in late 2001, they did nothing to help the tens of thousands of jobless aviation workers. Before a conference began to meld House and Senate versions of an emergency appropriations bill to fund the war in Iraq into a final bill, House Democrats offered a motion to instruct conferees to accept the Senate's provision on aviation workers. The Senate bill included $\$ 275$ million to provide an additional 26 weeks of unemployment benefits for unemployed airline workers who had exhausted their state and federal unemployment benefits. The House bill did not. Sixty-seven Republicans joined every Democrat in the House to pass the nonbinding motion to instruct the conferees who were meeting on the bill to accept the Senate provision. The motion passed April 8, 2003, 265-150: Y=R; N=W (R: 67-150; D: 197-0; I: 1-0)
3. TAX CUTS—H.R. 2—A Republican-sponsored $\$ 550$ billion tax-cut proposal bestowed most its benefits on the wealthy and corporations. House Democrats made several efforts to send the bill back to the committee level to scale back the tax cuts benefiting wealthy individuals and corporations. Democrats sought to use those funds to help states address their fiscal crises-nearly $\$ 200$ billion in state deficits that had forced layoffs and cuts in vital services-and to extend the federal Temporary Extended Unemployment Compensation that provides unemployment benefits to long-term jobless workers who exhaust their state unemployment insurance benefits. Republicans blocked those efforts and the bill passed on a mostly party-line vote May 9, 2003, 222-203: $\mathbf{Y}=\mathbf{W} ; \mathbf{N}=\mathbf{R}$ (R: 218-3; D: 4-199; I: 0-1)
4. RETIREMENT SECURITY-H.R. 1000-Tens of millions of workers have invested their retirement savings in 401(k) accounts. The collapse of Enron, WorldCom and other corporations not only robbed
workers of their retirement savings but revealed fiscal misconduct, bad investment advice and other dangerous corporate practices that threaten workers' retirement security. A so-called 401(k) reform bill in the House made only modest improvements in current law while removing key protections for workers' retirement security. The bill eliminated rules that prohibited investment advisers with financial conflicts of interest from providing investment advice to $401(\mathrm{k})$ plan participants. It also allowed employers to exclude more lower-paid workers from participating in $401(\mathrm{k})$ plans. The bill passed May 14, 2003, 271-157: $\mathbf{Y}=\mathbf{W} ; \mathbf{N}=\mathbf{R}$ (R: 222-1; D: 49-155; I: 0-1)
5. WORKER SAFETY/COAL DUST—H.R. 2660—Black lung, a fatal pulmonary disease caused by exposure to coal dust, is a major health hazard for coal miners. Over the years, federal rules have limited the allowable levels of respirable coal dust in mines. The Bush administration's Mine Safety and Health Administration (MSHA) proposed regulations that would allow coal mine operators to increase their respirable dust levels by 400 percent. During consideration of the FY 2004 Labor, Health and Human Services and Education appropriations bill, Rep. Nick Rahall (D-W.Va.) offered an amendment that blocked MSHA from using any funds to carry out the proposed regulations. The amendment failed on July 10, 2003, 210-212: Y=R; $\mathbf{N}=\mathbf{W}$ (R: 11-212; D: 198-0; I: 1-0)
6. OVERTIME PAY-H.R. 2660-In March, the Bush administration announced a plan to make changes in the Fair Labor Standards Act that could eliminate the overtime pay eligibility for 8 million or more workers. Reps. George Miller (D-Calif.) and David Obey (D-Wis.) offered an amendment to the FY 2004 Labor, Health and Human Services and Education appropriations bill to guarantee workers' overtime pay eligibility by prohibiting the U.S. Department of Labor from using funds to promulgate or implement any regulation that would take away overtime protection from workers who currently qualify. The amendment failed July $10,2003,210-213: \mathbf{Y}=\mathbf{R} ; \mathbf{N}=\mathbf{W}$ (R: 14-210; D: 195-3; I: 1-0)
7. LABOR/HHS/EDUCATION APPROPRIATIONS—H.R. 2660—The Republican-crafted FY 2004 Labor, Health and Human Services and Education appropriations bill critically underfunded education, health care, job training and other vital programs. The bill also eliminated funds for the Labor Department's international initiatives that help foreign countries fight child labor, educate their workers about HIV/AIDS and develop core labor standards. The bill passed July 10, 2003, 215-208: $\mathbf{Y}=\mathbf{W} ; \mathbf{N}=\mathbf{R}$ (R: 215-9; D: 0-198; I: 0-1)
8. TRADE: U.S.-SINGAPORE—H.R. 2739—United States and international labor and human rights activists long have fought to include strong and enforceable workers' rights standards, including the freedom of association, in trade agreements. The U.S.-Singapore Free Trade Agreement negotiated by the Bush administration did not include enforceable core labor standards. The agreement also contained a new temporary guest-worker program for professional workers entering the United States from Singapore. The bill passed July 24, 2003, 272-155: Y=W; N=R (R: 197-27; D: 75-127; I: 0-1)
9. TRADE: U.S.-CHILE-H.R. 2738—United States and international labor and human rights activists long have fought to include strong and enforceable workers' rights standards, including the freedom of association, in trade agreements. The U.S.-Chile Free Trade Agreement negotiated by the Bush administration did not include enforceable core labor standards. The agreement also contained a new temporary guest-worker program for professional workers entering the United States from Chile. The bill passed July 24, 2003, 270-156: $\mathbf{Y}=\mathbf{W} ; \mathbf{N}=\mathbf{R}$ (R: 195-27; D: 75-128; I: 0-1)
10. AMTRAK-H.R. 2989—Amtrak, the nation's passenger rail line, carries millions of passengers each year and employs more than 20,000 workers. For FY 2004, Amtrak estimated it needed $\$ 1.8$ billion to avoid service cuts, layoffs and the elimination of many key passenger routes. But the Bush
administration's FY 2004 budget request for Amtrak was just half the funding needed. During consideration of the FY 2004 Transportation, Treasury and Independent Agencies appropriations bill, Rep. Tom Tancredo (R-Colo.) offered an amendment that would further underfund the rail line by taking $\$ 320$ million from the $\$ 900$ million Amtrak funding level in the bill. Opponents said the amendment to reduce funding for Amtrak was an effort to weaken, eventually privatize and finally kill Amtrak, as the Bush administration has advocated. The amendment failed Sept. 4, 2003, 90-322: Y=W; N=R (R: 90-130; D: 0-191; I: 0-1)
11. PRIVATIZATION—H.R. 2989—In 2002, the Bush administration announced plans to privatize and contract out more than 850,000 federal jobs. In May, the Office of Management and Budget announced new rules that gutted previous regulations designed to create a level playing field between private contractors seeking government work and the agencies and workers performing the work. Rep. Chris Van Hollen (D-Md.) offered an amendment to the FY 2004 Treasury, Transportation and Independent Agencies appropriations bill that would have blocked implementation of the new pro-contractor privatization process. The amendment passed Sept. 9, 2003, 220-198: Y=R; N=W (R: 26-195; D: 193-3; I: 1-0)
12. PRIVATE SCHOOL VOUCHERS-H.R. 2765—As state and local fiscal crises grow, public school systems face increasing funding difficulties. Schools need resources to lower class sizes, repair crumbling schools and recruit, hire and retain qualified teachers. But Republicans offered an amendment to the FY 2004 District of Columbia Appropriations bill to divert public school funds and authorize a private school voucher program in the District of Columbia. The amendment passed Sept. 9, 2003, 209-208: Y=W; N=R (R: 206-15; D: 3-192; I: 0-1)
13. OVERTIME-H.R. 2660-When the Senate passed its version of the FY 2004 Labor, Health and Human Services and Education appropriations bill, it included an amendment that guaranteed workers' overtime pay eligibility by prohibiting the Labor Department from using funds to promulgate or implement any regulation that would take away overtime pay protections from workers who currently qualify. In March 2003, the Bush administration announced a plan to make changes in the Fair Labor Standards Act that could eliminate the overtime pay eligibility for 8 million or more workers. Before the bill went to conference with the House version, which did not include the overtime pay eligibility guarantee, the House passed a motion to instruct conferees to go along with the Senate overtime provisions. The motion was approved Oct. 2, 2003, 221-203: Y=R; N=W (R: 21-201; D: 199-2; I: 1-0)
14. AIR TRAFFIC CONTROL PRIVATIZATION—H.R. 2115—During summer 2003, the Senate and House approved versions of the Federal Aviation Administration Reauthorization bill that contained provisions to guard against a Bush administration plan to privatize the nation's air traffic control system. But when merging the legislation, the Republican-dominated conference committee dropped those provisions. Along with allowing air traffic control privatization, the conference report included provisions that allowed foreign air cargo companies to raid U.S. domestic markets in violation of longstanding cabotage laws that govern foreign participation in the domestic airline market and gutted flight attendant anti-terrorism training requirements in defiance of a bipartisan mandate embodied initially in the Homeland Security Act of 2002. The House passed the conference report Oct. 30, 2003, 211-207: $\mathbf{Y}=\mathbf{W} ; \mathbf{N}=\mathbf{R}$ (R: 210-11; D: 1-195; I: 0-1)
15. MEDICARE PRESCRIPTION DRUGS-H.R. 1—The final version of the Medicare prescription drug bill moved Medicare toward privatization, steered seniors to private HMOs, forced 32.5 million current beneficiaries to pay higher premiums and other Medicare costs, opened the doors to \$139 billion in profits for the pharmaceutical industry, prevented the government from negotiating for
lower drug prices, did nothing to rein soaring prescription drug costs for seniors and threatened the employer-provided drug coverage of millions of retirees. House Republican leaders conducted an unprecedented three-hour vote that did not conclude until 6 a.m. During the three hours the vote was held open-votes typically are open 15 to 20 minutes-the bill's opponents held a narrow lead. But following intense arm-twisting by President Bush and Republican House leaders, several Republican members gave in to pressure and political promises and switched their votes. The bill passed Nov. 22, 2003, 220-215: Y=W; N=R (R: 204-25; D: 16-189; I: 0-1)
16. COMPENSATORY TIME—H.R. 1119—In early June 2003, House Republican leadership scheduled a vote on compensatory time legislation, H.R. 1119. The bill would allow employers to give workers compensatory time off in place of time-and-a-half pay for every overtime hour worked. The so-called Family Time Flexibility Act actually would fail to give workers more control over their time, undermine the 40-hour workweek and could result in pay cuts for working families who depend on overtime pay to meet expenses. The bill was opposed strongly by the AFL-CIO. When it became apparent to GOP leaders there were not sufficient votes to pass the bill, they pulled the legislation from the floor. However, most representatives had made commitments on the issue and these are included in the Voting Record but not included in the year-end or lifetime percentages.
